ITEM 5: UPDATE FROM BLAINE REELY, SAN LUIS OBISPO COUNTY DIRECTOR OF GROUNDWATER SUSTAINABILITY AND DEMONSTRATION BY WILL CARRARA OF MYTHOS, INC. ON THE FALLOWED LAND REGISTRY.

Blain Reely gave a brief overview of the development of the Fallowed Land Registry which required amendment of the Williamson Act and the County's Ag Offset Ordinance 5-year lookback. There are approximately 1,000 acres to date in the registry. Will Carrara of Mythos Inc. conducted a demonstration of the Registry platform and discussed its confidentiality and dynamic structure. It is anticipated that the Paso Robles Area Groundwater Authority (PRAGA) will at some point assume responsibility for the Registry, but for now it remains housed at the County. Enrollment of lands in the Registry protects against the constraints of the Ag Offset Ordinance's 5-year lookback period.

ITEM 6: CONSIDER PRELIMINARY 2026-2027 BUDGET

Staff presented the preliminary budget. The discussion included concerns about potential liability for any PRAGA shortfalls. Staff will return with a final budget and suggested assessment levels at the June 10, 2026 regular meeting.

A list of APNs in order is now available at the PRAGA website for review. The discussion included the appeals process and who conducts/oversees the appeals that are submitted, as well as whether the fees were retroactive or were based on prior year's data to formulate the fee schedule. There is concern that people don't understand the Prop 26 process.
